SMART **SENSE**

BY DIGIT.

Effortless Compliance Management

Reduce risk and ensure compliance by increasing food safety visibility with continuous temperature monitoring and efficient incident management workflows.

Improved Productivity Optimization

Replace paper processes with an intuitive task management system that provides visibility across all your sites. Remotely publish and manage operational checklists to improve efficiency and reduce loss.

Simple Risk Mitigation

Gain real-time insights into checklist compliance and easily compare site performance to quickly identify at-risk sites for immediate remediation. Real-time monitoring provides instant alerts for temperature excursions in you organization and throughout the supply chain.

ENTERPRISE DASHBOARD

EQUIPMENT MONITORING

Proactively detect temperature excursions and efficiently manage compliance logging and incident management workflows

DIGITAL CHECKLISTS

Replace paper checklists with an intuitive task management system that provides visibility across all your sites

SUPPLY CHAIN VISIBILITY

Gain insight into product temperature through an end-to-end system for safety, quality, and regulatory compliance

The SmartSense System

The SmartSense system is designed to solve your most important food safety and operational challenges. The system combines wireless sensors and food probes with remote monitoring software and a digital checklist. The results are actionable insights that drive quality control, employee productivity, and food safety compliance.

Wireless Sensors

Connect any fridge or freezer in minutes with SmartSense's wire-free sensors.

Monitoring Platform

Gain proactive insights and remotely monitor equipment to automate paper temperature logging.

Bluetooth Probe & Digital Checklist

Improve HACCP efficiency with a Bluetooth food probe and a digital checklist.

The SmartSense Difference

Proactive Insights

Gain visibility with predictive models and simulated product temperature that enable proactive decision making.

Enterprise Grade

Store & forward technology for lossless monitoring, up to 5-year battery life, IP-67 rated sensors, and AES encryption and certificates.

Collaborative Monitoring

Drive efficiency with SmartSense's collaborative system for incident management and cross-team workflows.

Compliance Visibility & Efficiency

Meet HACCP and FSMA requirements. Gain visibility into site performance for improved accountability and risk management.

Deploys in Minutes

Install in minutes with self-provisioning wirefree sensors. Quickly monitor temperature, humidity, tank, energy, and other sensors.

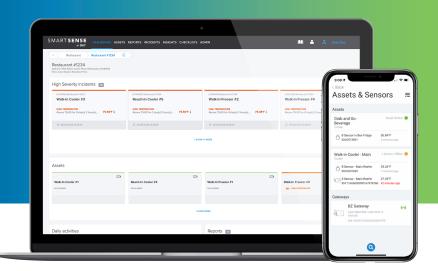

Deployment Experience

We partner with our customers to create world leading systems. We have experience deploying 250 sites per day.

SmartSense Dashboard

SmartSense's cloud-based dashboard provides real-time oversight of your food safety initiatives and visibility into compliance, site performance and risks.

Proactive Insights

Make proactive decisions using SmartSense's patented product simulation that provides insight into actual product temperature as well as ambient temperature.

Automate Reports

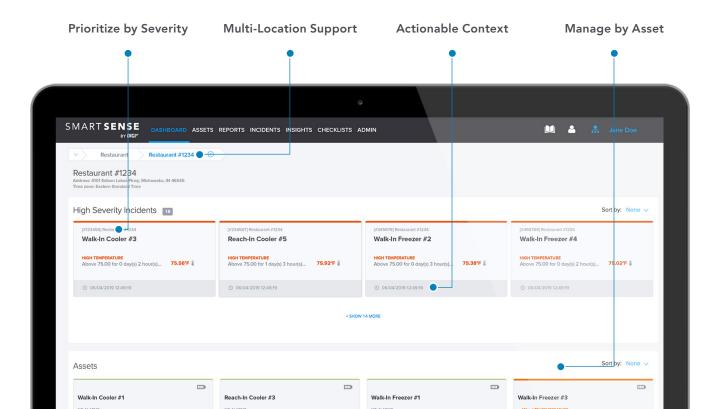

Receive automated reports by email to replace paper temperature logs and to identify chronically failing fridges and identify sites that have the greatest safety risk.

Team-Based Monitoring

Assign incidents to teammates and track corrective actions from anywhere with SmartSense's collaborative approach to incident and workflow management.

Visibility & Accountability

Gain visibility into your compliance checks and easily measure and compare site performance. Increase accountability with timestamps and signatures.

Digital Checklist

SmartSense's digital checklist replaces paper checklists with an intuitive task management system that provides visibility across all your sites.

Visibility & Insights

Gain real-time insights into checklist compliance and easily compare site performance. Quickly identify at-risk sites for immediate remediation.

Task Management

Remotely publish and manage checklists for food safety, quality control, receiving, promotions, and more. Easily customize checklists and instantly push to all your sites.

Integrate Equipment Monitoring

Automate equipment monitoring with seamless integration of SmartSense's wireless sensors and Bluetooth probe with the digital checklist.

Automate Reports

Schedule automatic or on-demand reports to replace paper logs and checklists. 10-year historical data log eliminates the need for extensive paper records.

Wireless Sensors & Screens

SmartSense's wireless sensors offer the world's only 100% wire-free installation and wireless screens for deployment in minutes.

Actionable Alerts

Receive both audible and visual notification when sensors are in alarm.

Plug & Play Install

Sensors automatically connect to your SmartSense gateway to provide a self-provisioning installation process. Centralized configuration is provided through our web-based dashboard.

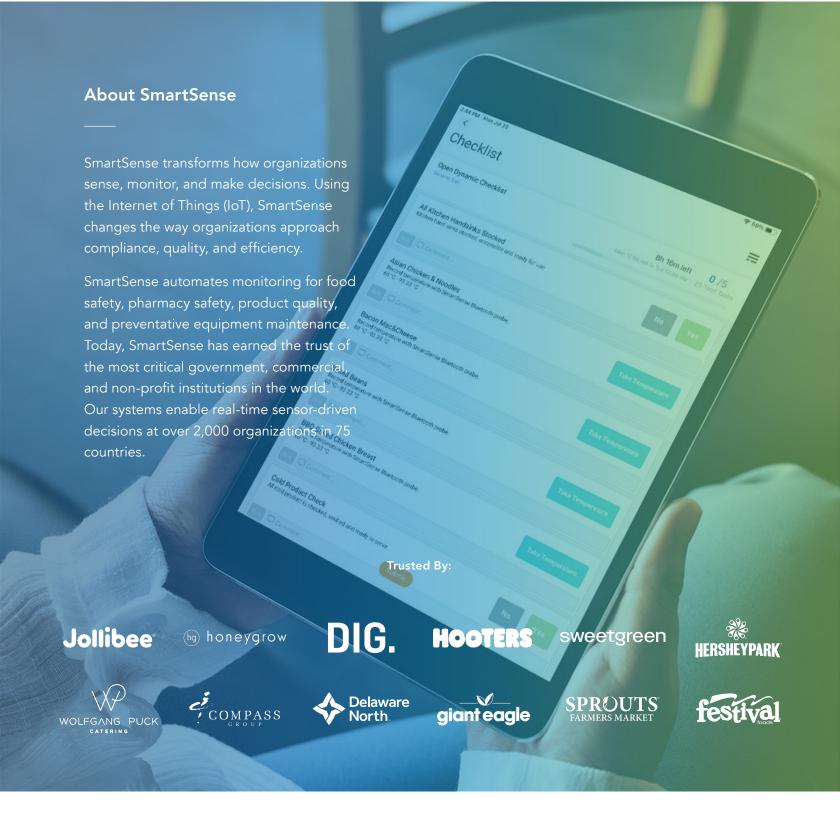

High Contrast Display

High contrast e-ink display provides crystal clear readings.

100% Wire-Free

Deploy in minutes with the industry's only sensor that can be placed directly in fridges and freezers - no wires or cords.
